Bratislava: Karlova Ves is looking for the investor for the building up of shipyard at the Karlova Ves bay. Originally the major, Iveta Hanulíková, should have signed the agreement with Karloveské rameno, s.r.o. for the building-up of shipyard and the relating relax-rest infrastructure at the price of almost 838-thousand € (more than 25 mills SKK). She explained her decision not to sign it by the fact that it would be disadvantageous apparently for the municipal district according to the law on municipal system. Karlova Ves deputies therefore decided on the tender at the Tuesday proceeding. „The major has the permission to announce the tender so as she would make it in the term of the law. When the appropriate investor is chosen, any suspicious can be, that some was chosen beforehand,“ the deputy Martin Berta told.
