Penta Investments Company plans to build-up the multifunctional object near Štrkovec on the crossing of Bajkalská and Ružinovská Streets in Bratislava Ružinov at the price of about 40 millions €. As Martin Danko, the Penta Investments speaker, told, the project is upon the preparation phase currently. „Internally we are solving its final concept, “he stated. 300 flats with additional services ought to be situated on the area of 34 000 m². The project ought to bring an original architecture, too.

The land, where the company wants to build-up, is a part of the urban study, which the municipal district had to work out to regulate the area near the lake. As Maroš Smolec, the Ružinov speaker, told, the study solves surrounding of Štrkovecké jazero (Štrkovec Lake) closely. „ It is mainly focused on protection of the lake and its rest-sports function, “he detailed. The multifunctional object ought to have 12 aboveground and two underground storeys according to the study. Smolec also added that the investor did not obtain any permission for this build-up till now - neither the planning nor the building one.
