Approximately 465 thousand Euro invested the Košice Faculty Hospital of Louis Pasteur in the reconstruction of the eleventh pavilion included among cultural monuments. Repair of the eleventh pavilion, in which the Clinic of Pneumology and ftizeology established in 1950 is situated, was launched in October 2008 and carried out in three stages. As told the director of FNLP Jaroslav Šajta, the roof, windows and facades in the eleventh pavilion were before reconstructed in the state of emergency and the renewal was necessary.
