

Nitra: Citizens may comment upon the new municipal district

Author: SITA - Slovak News Agency | Published: 14.07.2009

Nitra citizens may comment upon the setting for the planning scheme development of the new municipal district Párovské lúky till August 06, 2009. It should grow between the Nitra River and the northern bypass. On the surface of 434.5 ha will raise the space for 30 - to 40 thousand people. It will have an urban character of the separate town served by the traffic infrastructure of Nitra 3 by new road bridges. The majority of the houses will be with 4 to 6 floors. Several high dominants are counted on, for example near the spring at Šindolka or the OMW feeling station. Párovské Lúky could become reality within ten to forty years.
