According to the Prague Research Forum (PRF), the total area of office space in Prague was nearly 2,7 mill. square metres at the end of the first quarter. This space includes 71 % of newly completed and 29 % of reconstructed areas. The A-class buildings account for 67 % and B-class buildings for 33 % of the total area. No office building was completed in the first quarter, for the first time since 2006. Completion of roughly 55 000 m2 of new office areas is expected during 2010.
