

Ekospol: J. Valášek appointed as Head of Engineering

Author: SF / pb | Published: 05.04.2011

Ekospol has new Head of Engineering as of March this year. Jiří Valášek was appointed in this position. He will be in charge of managing the engineering department and co-ordinating its work with other units in the project preparation process. He will be responsible for complex engineering of all new residential projects by the company, especially for negotiating project documentation with relevant authorities up to the stage of final building permission. Jiří Valášek joins Ekospol from SATPO, where he was also in charge of preparation of residential projects.

Jiří Valášek (30) graduated from Faculty of Civil Engineering at Czech Technical University in Prague. He is single and his hobbies include mainly travelling, sport and choir singing.
