

# Lordship commenced construction of Galerie Stromovka

Author: SF / pb | Published: 06.03.2012

The company Lordship began construction of administrative centre Galerie Stromovka. The construction on the municipal plot above Parkhotel was enabled by Prague 7 leadership despite resistance of the public and opposition parties. The seven-storey building will offer almost 20,000 of office and retail space and 500 underground parking spaces. Supermarket chain Tesco will be its main tenant.

Council of Prague 7 is to decide on the sale of the leased plot this week. It is possible that it will be acquired by the current tenant and building investor, the company Holešovický trojúhelník, member of the Lordship group, for an estimated price of CZK 93.5 million.
