Consultation-project company Dopravoprojekt, a.s. Bratislava took part in the project preparation of about 80% of selected stages of the D1 motorway and the R1 speedway, which ought to be build-up and put into service in the frame of three packages of public-private partnership (PPP).

Gabriel Koczkáš, the general director and the chairman of the Dopravoprojekt board of directors, informed about it.

Preparation of the speedway R1 stages building Nitra west - Selenec - Beladice - Tekovské Nemce and northern bypass of Banská Bystrica have been finished entirely, according to him. Finalization of the D1 motorway stages project preparation between Martin and Prešov in the first package of PPP is counted on after the lawful building permission come into force. Dopravoprojekt was preparing projects for 4 from 5 planned stages in the first package and for all four stages in the second package and it has only marginal participation in the third package like a sub-contractor in Žilina vicinity.
