

Near Košice should grow-up another industrial park

Author: SITA - Slovak News Agency | Published: 19.05.2009

The Cestice village plans to build it up. Investments for the industrial park construction are provisionally estimated in the amount of 21.6 mills Euro. As it is apparent from the investment plan, which the municipality has submitted to Environmental Impact Assessment - EIA; through the industrial park should be created about one thousand new jobs.

The industrial park should be used for mechanical and electrical industry, logistics and for research and development. The Park should be spread in the area of 105 ha. The village wants to build the industrial park in two phases. Launching the first phase of the construction, which will require roughly 6.6 mills Euro, is scheduled for next year. Construction of the second phase of the industrial park, which should cost about 15 mills Euro, should begin in 2020.
