

# Košice will be introduced on fairs promoting investment opportunities

Author: SITA - Slovak News Agency | Published: 16.06.2009

Working group on investments prepares presentation of Košice at the world investment and real estates fairs like Expo Real in Munich and MAPIC in Cannes. Leader of the Košice team, who will be also representing the city at both fairs, should become the chief Košice architect, Martin Drahovský, who has extensive international experience. “Aim of our presence at such prestigious fairs is to present Košice as an attractive destination with investment opportunities, to acquire contacts to potential investors and to offer suitable locations in our town,” said member of the working group and deputy for the chief architect of Košice, Martin Jerguš.
