

SR building industry fell by 2% in June

Author: SITA - Slovak News Agency | Published: 25.08.2009

Slovakia with the decrease of 2% in the building production belonged in June to the European Union (EU) countries with the biggest semi-months decline. Building industry throughout the Union decreased semi-yearly by 3.3% in June; the decrease in the Euro zone building industry was on the level of 1.1%. As reported the EU statistical office Eurostat on Wednesday.
