Penta, which plans to build the multifunctional centre Bory behind Bratislava Lamač (formerly Lamačská Gate), obtained the permission for field work, which is precondition for essential archaeological exploration. „Then we will seek the permission to build the engineering networks and infrastructure,“ said Martin Danko, PR manager and spokesman of Private equity of Penta Group for SR. In the 1st stage they will start building the shopping centre and commercial- entertainment centre. In the 2nd stage they will build office spaces and residential complexes with complete amenities, including apartments and relax facilities.
