Total construction expenditures for construction of the 7-hectare industrial zone Medzilaborce - Mierová are 1 650 thousand €. As said Vladislav Višňovský, the head of the Municipal Office, the state money will be used to finance an infrastructure, design documentation, repurchase of lands and properties. The town in connection with public procurement of a contractor signed a contract with MH INVEST, a subsidiary of the Ministry of Economy. Investors from the field of engineering industry and production of synthetic crystals are interested in to enter the zone. There would be created about 500 new jobs.
