

# Dopravoprojekt has established its branch in CR

Author: SITA - Slovak News Agency | Published: 03.11.2009

Dopravoprojekt, a.s., the largest design and engineering-consulting company in Slovakia, has established its branch in Czech Republic. The reason of its establishment is activity of the company in Czech republic in designing line structures and providing engineering activities. "As the largest design company in Slovakia Dopravoprojekt will intensely interest in the possibility of providing their services and capabilities to the Czech market by offering its long experience in the field of design services as well as in author services and construction supervision " informed SITA Gabriel Koczkáš, the chairman and CEO of Dopravoprojekt on Thursday.
