A new logistics park would grow in the region of Dunajská Streda. Incomax Slovakia plans to build it in the cadastre of the village of Velké Blahovo at the price of about 23 million €. The investor wants to build 3 storage distribution halls there. They would spread on the area of 33 thousand, 22 thousand and 450 m². The logistics park would create approximately 55 new jobs. The company wants to begin the construction in June 2010 and plans to complete it in November 2011.
