

Most tenants of commercial centres has Bratislava

Author: SITA - Slovak News Agency | Published: 01.12.2009

Most tenants of commercial premises in shopping centres per number of inhabitants has Bratislava, on the contrary they are the least concentrated in the Banská Bystrica self-governing region. This results from the study "Mix Shopping malls 2009 " by GfK Slovakia agency, which monitored 39 shopping centres and nearly 3 000 tenants under the brand and type of business. As a further the study shows, for shopping and entertainment centres of the urban type can be considered 26. Entertainment and recreation program provide the utmost in Bratislava and western Slovakia.
