The company Avalta wants to build Multifunkčné centrum in Košice - Moldavská, the expected investment totals to EUR 48,5 mill. It should include a commercial passage, a pedestrian zone and a network of cycling paths. The built-up area of the centre accounts for 21 700 m². The construction is scheduled to start in October this year, its completion in June 2012. The commercial passage building will be divided in height into three above-ground floors and an underground parking space. A pedestrian zone will lead through the centre of the designed complex, its main inner part will have the shape of a city boulevard with commercial spaces but also stalls with vegetables or with traditional arts.
